

# Key Variable Management System (KVMS) Battery

## FEATURES

- Light weight
- Compact size
- Low temperature operation
- Intelligent electronics provide SMBUS communications and battery protection
- Fully qualified and tested for military environments
- Li-ion technology

## FORM FACTOR

- Custom design
- Moulded sealed plastic case
- 4 pin sealed connector

## TECHNICAL DETAILS

• Capacity	2.0Ah
• Voltage	7.2V Nominal (8.4V max)
• Temperature Range	Operation -30°C to +71°C Storage -40°C to +71°C
• Weight	138g
• ABSL Part Number	431760
• NSN Number	6140-99-758-4357
• Application	Lightweight battery for fill gun encryption device
