

# VHF Radio Battery

## FEATURES

- High energy density
- Light weight, robust case
- Wide operating temperature range
- No memory effect
- Incorporates AGM Li-ion ICR 34600 cells
- Excellent low temperature operation
- Intelligent battery with integral fuel gauge
- Fully qualified and tested for military environments
- Recyclable components

## FORM FACTOR

- Custom design
- Rugged aluminium skin
- Press-to-display fuel gauge
- Auxiliary charge connector (not shown)

## TECHNICAL DETAILS

• Capacity	5.0Ah	• ABSL Part Number	431812
• Voltage	14.4V Nominal (16.8V max)	• NSN Number	6130-99-549-9072
• Temperature Range	Operation -40°C to +71°C Storage -50°C to +71°C	• Application	Multi-function power source battery for VHF radio and other communications equipment
• Weight	1.1kg
